CALL FOR PAPERS

Description

The organizing technical and scientific committees of the 6th Conference on Structural Nonlinear Dynamics and Diagnosis (CSNDD 2026) is organizing a mini-symposium on the *Dynamics of Micro and Nano Systems*.

This mini-symposium is arranged to interchange ideas on different aspects of micro- and nano-systems based dynamic simulations and experiments.

Topics of interests include, but are not limited to:

- Linear and nonlinear dynamics of micro- and nano- systems;
- Micro- and nano- systems based resonators and their applications;
- Modeling the dynamics MEMS and NEMS using innovative approaches and numerical methods;
- Static, dynamic modeling and characterization of micro- and nano- sensors and actuators;
- Nonlinear dynamic phenomenon of micro- and nano-systems and potential of use in several applications.

Deadlines

1-page Abstract Submission	Dec 30, 2025
Acceptance Notification	Jan 31, 2026
Final Paper Submission*	May 15, 2026

Abstracts and Papers Submission

Contributing authors are invited to submit a 1-page abstract, stating the objectives, results, conclusion and references of the work to be presented at the conference. All abstracts will be reviewed by the Scientific Committee.

Participants have the possibility to submit a full paper (10 to 12 pages) for publication consideration in a Springer indexed series:

"Springer Proceeding in Physics"

Either the abstracts or the full-length papers can be submitted via the CSNDD 2026 Web-tool at:
<https://csndd2026.sciencesconf.org/>
